ABOUT COLLEGE

The college is established in 1967 to serve ever growing educational needs of the society. On Panvelkar-Deshmukh and Dattatraya Panvelkar's Path is come together under the banner of Shri Shree Education Society, Amruti. The institute has provided a policy of self-renewal all along and when the time comes to reinvent itself in the context of changing scenario, it has upgraded itself with the introduction of Arts faculty at UG level in 1971, Commerce at UG level in 1989 and PG in Commerce in 2009, PG in Science and Arts in 2010. Also added research degree program like M.Phil. and Ph.D in all faculties.

UGC Sponsored Career Oriented Program like Entrepreneurship, Finance Management and Agriculture. Communication skills in English, Instrumentation and Fashion Designing also opened to develop skills among the students. Human Right Education and Dufur Course have been started for holistic development.

COMMITMENT

Human activities have an impact on climate that translates already and increasingly into global warming, resulting in more severe weather conditions (drought and flood), extreme meteorological events and sea level rise. One of the main causes to be found in our energy consumption, served by an energy production system which has grown in most industrialized (and industrializing) countries well beyond the limits of sustainability.

It is also increasingly acknowledged by experts in the field that the present and future climate changes cannot be achieved through science and technology alone. Individual and collective behaviour that of citizens, industries and policymakers will be a key determinant of taking a path towards sustainable energy production and consumption. So we organize this competition to create awareness and responsibility about energy and environment conservation among students. This competition is open for undergraduate students of Arts, commerce and Science faculty.

Feedback: Feedback of each lecture is collected through Google form and analyzed and attached below.

- i) It is decided to organize a state level poster competition for undergraduate students for science, arts and commerce faculty on energy awareness and environmental conservation.
- ii) A committee for the organization for the program was formed.
- iii) The members of the committee are mentioned in above report.
- iv) The work was distributed among the committee members.
- v) A leaflet of the workshop was prepared and posted on WhatsApp group of the college and different groups of the students.
- vi) The interested students registered for the program through Google form.
- vii) Mr. Rahul Deshpande, Aurangabad and Sanjay Hargunani from G. S. College, Khamgaon are the resource person for the program and they explained very well about energy conservation and its uses.
- viii) The program helps to student aware about the importance of energy.
- ix) The winner of the program announced and prize distributed to them.
- x) Certificates of the program handed over to the participants
- xi) Feedbacks of participants collected through online Google form analyzed.
