National Level Workshop on “Big Data”

Shri Shivaji Science & Arts College, Chikhli, Dist-Buldana. The Department of Computer Science, has been conducted a **National Level Workshop on “Big Data”**, on **05th August 2021**.

Introduction:

Big Data is a collection of data that is huge in volume, yet growing exponentially with time. It is a data with so large size and complexity that none of traditional data management tools can store it or process it efficiently. Big data is also a data but with huge size. Big Data helps corporations in making better and faster decisions, because they have more information available to solve problems, and have more data to test their hypothesis on.

Challenges in Big Data :

1. Data growth

Managing datasets having terabytes of information can be a big challenge for companies. As datasets grow in size, storing them not only becomes a challenge but also becomes an expensive affair for companies.

2. Data security

Data security is often prioritized quite low in the Big Data workflow, which can backfire at times. With such a large amount of data being collected, security challenges are bound to come up sooner or later. Mining of sensitive information, fake data generation, and lack of cryptographic protection (encryption) are some of the challenges businesses face when trying to adopt Big Data techniques.

3. Data integration

Data is coming in from a lot of different sources (social media applications, emails, customer verification documents, survey forms, etc.). It often becomes a very big operational challenge for companies to combine and reconcile all of this data. There are several Big Data solution vendors that offer ETL (Extract, Transform, Load) and data integration solutions to companies that are trying to overcome data integration problems. There are also several APIs that have already been built to tackle issues related to data integration.

The future of Big Data

The volume of data being produced every day is continuously increasing, with increasing digitization. More and more businesses are starting to shift from traditional data storage and analysis methods to cloud solutions. Companies are starting to realize the importance of data. All of these imply one thing, the future of Big Data looks promising! It will change the way businesses operate, and decisions are made.

Objective:

It has been organised to make awareness in the area of Big Data. This workshop will be beneficial for further research interests in Big Data for researchers in this area. We expect to explore novel concepts and ideas in the field of Big Data.

The participant's response is as follows:

No. of Participants	Maharashtra	Andhra Pradesh	Karnataka	Kerala	Tamil Nadu	Bihar	Punjab	Himchal Pradesh	Gujrath	UAE (Dubai/ Yeman)
260	226	3	17	1	2	1	1	1	2	6

For this workshop Dr. Mahendra P. Dhore, Principal, Shri Shivaji Science College, Nagpur, was the resource person.

Dr.O.S. Deshmukh, Principal Shri Shivaji Science College, Chikhli, Dist. Buldana was President for National Level Workshop on Big Data who always motivate and support us to organize such types of social events.

The inaugural guest was Dr. V.U. Pocchi, IQAC Coordinator, inspired us to organized the National Level Workshop.

Dr. A.B.Kadam, Convener of the National Level Workshop on Big Data. Dr. M.E. Jadhav, Co-Convener and Dr.Sonali Gaikwad has Organizing Secretary for the National Level Workshop on Cryptocurrency. Departmental member Mr. S. A. Chavan who helped for the successful conduction of workshop.

Feedback for National Level Workshop on Big Data

The feedback for National Level Workshop on Big Data from the participants view was all over very good and very much informative National Level Workshop on Big Data. The workshop was perfectly well prepared & nicely organized. The sessions were very needful & informative. It was very fruitful to researchers.
